**Welcome to the newest Marshal from ACG:** Lord Andreas Jäger von Holstein. Andreas has been MIT'ing under the marshal's of Endless Hills with the goal of helping AGC get a warranted rapier marshal so they can get their program up and running.

**Additional Notes:**

- Ichabod continues to MIT at Tuesday night practices and assists at events/demos as his schedule permits.
- Practices continue on Tuesday evenings at the Forty-Fort Building from 8pm to 10pm and we continue to look for an alternate 'all season' practice location.
- A contingent of EH fencers attended the Myrkfaelinn event
- Several EH fencers ventured to AGC this past Tuesday for a "steel therapy" session.
- Our **newest** fencer, Rob Rosencrans has chosen an SCA name & developed a persona (Arms are currently a work in progress) – so be it known far and wide that our newest SCA'dian Swashbuckler (who also happens to be a Pirate aboard the Damascus Rose) shall from this day forward be known as: **Nicolai Kräntz** (15<sup>th</sup> century German).
- After a rather intriguing discussion with Nicolai regarding blades, guards, quillions, etc. – using of course his knowledge of Japanese Swordsmanship, we have come up with a "concept design" for a rapier hilt/guard. Sketches are currently in process and once completed will be given to a bladesmith to see if the design can actually be crafted into a

safe & useful guard – and one which will meet SCA rapier safety standards. More information will be forthcoming on this project as it progresses.
